

Five Workshops on Genetic Seed Testing

The workshops are targeted towards candidates preparing to take the Registered or Certified Genetic Technologist exams, individuals looking for a refresher course on the basics, and those that may just be beginning in this field.

Workshops will include lecture, hands-on activities, and materials to take home. Time will also be spent discussing genetic testing issues, new technology, and sources of information, products, and additional training resources.

When:

Monday	2/6/2012	Herbicide Bioassay
Tuesday	2/7/2012	Immunoassay/ELISA
Wednesday	2/8/2012	Molecular Genetics
Thursday	2/9/2012	PCR & Nucleic Acid
Friday	2/10/2012	Electrophoresis

Where: Workshops will be held at the Iowa State University Seed Science Center located in Ames, Iowa. Registration, travel & accommodation information:

<http://www.seedtechnology.net/workshops.htm>

Fee (includes lunch & breaks): 1st workshop= \$100 Each additional workshop= \$50

Workshops organized by the:
Society of Commercial Seed Technologists
Genetic Technology Committee
Working Groups

To register contact:
Anita Hall, SCST Executive Director
101 East State St., #214, Ithaca, NY
607.256.3313 scst@twcnny.rr.com
www.seedtechnology.net

Presentations from past workshops are available from SCST genetic resources webpage:
